

HERMETIC SHAMPOO

Hermetic shampoo without sulfates or parabens that synergistically combines several multi-effect active ingredients. Those ingredients help protein synthesis by stimulating hair growth, enhance the regenerative capacity of the follicle, anchor the hair bulbs by increasing hair density, strengthen the hair follicle to prevent hair breakage and inhibit 5-a-reductase by reducing excess of sebum that weakens the hair.

In addition, it is formulated with menthol that provides freshness and extremely mild surfactants that clean in depth, respecting the scalp and capillary structure, prolonging the life of the hair and strengthening it from the roots, achieving healthier and stronger hair.

AMONG A LARGE NUMBER OF KEY ACTIVE INGREDIENTS, WE HIGHLIGHT:

HYDROLYZED RNA AND DNA:

They intervene by enhancing the keratin synthesis metabolism, thus strengthening the hair structure. Once applied to the scalp, it will hydrolyze, breaking into small pieces including deoxy-D-Ribose, amino acid nitrogenous bases and phosphoric acid. All these nutrients are those that the cell will use to repair or reconstitute its own DNA and enhance the regeneration of the follicle, improving and strengthening the condition of the hair.

TRACE ELEMENTS:

It contains a mixture of various elements such as Cu, Zn, Fe, Si and Mg that affect the metabolic balance of the scalp.

They inhibit 5-a-reductase avoiding the formation of DHT and therefore reducing excess sebum that weakens the hair until it reaches baldness.

HYDROLYZED KERATIN:

Keratin is the major protein in hair. The sulfur amino acids it contains favor the restoration of damaged hair fibers, restoring body, volume and vitality to the hair. Thanks to its conditioning power, it improves shine, helps eliminate frizz and prevents the formation of split ends.

SODIUM ASCORBYL PHOSPHATE:

Stable vitamin C that stimulates collagen and elastin biosynthesis, improving skin elasticity and protecting skin and scalp from the oxidative process by neutralizing free radicals. Provides luminosity and evens the skin tone, improving the appearance of the face.

How to apply: Apply to hair, previously wet. Massage and leave it to act for 5 minutes. Finally rinse with plenty of warm water.
